

# Antoine Bolvy

I am looking for a company that has environmental and social impact. After several years as a Lead Developer in startups and several freelance missions, I have acquired strong expertise and autonomy.

With 7 years of experience in Fullstack JS (Node/React/MongoDB/PostgreSQL), I am very open to another stack because I enjoy discovering new technologies and staying at the forefront.

VISITING STUDENT IN COMPUTER

SCIENCES, GRADUATE LEVEL

2016 - 2017 | Montréal, Canada

## PASSIONS

### COOKING

I love cooking and making complex dishes (e.g. Neapolitan pizza, pastries, etc.). I am a vegetarian and I enjoy making my desserts plant-based.

### ESPRESSO

I enjoy discovering new flavors and taking care of my coffee machines.

### 3D PRINTING

Spare parts, decorative objects, upgrades for my coffee machine ;)

## EXPERIENCE

### Self employed | SENIOR FULL-STACK SOFTWARE ENGINEER

2015 - Present | Remote

Node.js TypeScript PostgreSQL React Python AWS Terraform

- Missions from several days to several months
- Various clients: startups, SMEs and large groups
- Varied demand: small needs (scripts), development of applications alone or in tandem with a front-end dev and management of deployments on AWS with Terraform
- Worked with multiple clients on tight schedules

### La Belle Assiette | LEAD SENIOR SOFTWARE ENGINEER

Sept 2017 - June 2022 (5 years) | Paris, France

Node.js MongoDB/mongoose React AngularJS AWS Terraform

La Belle Assiette brings talented chefs into your kitchen so you can enjoy hosting dinners without the stress of cooking or cleaning. [Website](#)

- Managed the engineering team
- Implemented new features for the on-line booking platform, the chef's back-office and the admin back-office
- Maintained and performed critical upgrades (MongoDB, AWS, etc.), implemented best practices in the team

### Kids-OK | SOFTWARE ENGINEER

Aug 2015 - Jul 2016 | Lyon, France

Node.js MongoDB/mongoose AngularJS Android/Java

Kids-OK was a Lyon-based startup that wanted to offer parents solutions to protect their kids on new technology and social networks. [Website \(archived\)](#)

- Designed and maintained the back-end API (interacting with social APIs: Facebook, Twitter, Instagram), set up CI and automated tests, prototyped a natural language processing algorithm to detect swear words
- Developed an advanced Android application: a secure launcher for children
- Gained experience in project management, took leadership on the product, made design decisions

### AnyFetch | SOFTWARE ENGINEER (INTERNSHIP)

Jul 2014 - Mar 2015 | Lyon, France

Node.js MongoDB/mongoose Chrome extension

AnyFetch was a startup aiming to provide people with a cloud-wide document search, integrating with popular services such as Gmail, Dropbox, etc. [Website \(archived\)](#), [Product Hunt post](#)

- Developed a Google Chrome Extension in JavaScript. [Screenshots](#)
- Maintained the large-scale REST API (150+ calls per second) written in Node.js, several micro-services, and the client-side management interface

## PROJECTS

### KISS Launcher | CONTRIBUTOR AND CO-MAINTAINER

Jan 2015 - Present

KISS Launcher is a blazingly fast open-source launcher for Android. [Website](#)
